7100 N. Santa Fe
Oklahoma City, OK, 73105

February 11, 2014

To whom it may concern,

I am writing to recommend the services of Owens Communication. Crescent Directional Drilling OKC Branch has recently moved into a new building and Owens Communication has assisted in with our communication lines and we appreciated the quick response and the professional manner in which the work was conducted.

We have had companies try to fix the problems we were encountering however, none of these companies responded as quickly or had the issues fully resolved. We contacted Kirk Owens of Owens Communication to take a look at issues we were experiencing and Kirk was out to our location the same day. He quickly assessed the situation and immediately began working efficiently and effectively. Our issue was resolved within 30 minutes of his arrival.

I am happy to recommend the services of Owens Communications. If you have any questions, feel free to contact me.

A handwritten signature in black ink that reads "Lynn Hensley".
