

To Whom It May Concern,

Dan Reynolds Construction uses Owens Communications for phone system support and structured cabling. We've known Kirk for quite some time now and know how capable and committed he is to the Telecommunications Industry. He is very knowledgeable about all aspects of communication products and works hard to help us in a prompt manner.

If you need someone who will act fast, work hard, and follow through call Owens Communications.

Sincerely,

Kendall Shults  
General Manager  
Dan Reynolds Construction
