To Any Interested Party,

Owens Communications provided a complete solution for us when we recently moved into our new facility. Let me explain. We purchased our own phone system and asked Owens Com staff to wire, install and program for this system. Did I mention we gave them no notice and asked them to do it in two days.

Well they did it, learned the system from scratch and programmed it to work for our needs. Did all the wiring in immediate fashion too. Heck yeah I would recommend Owens Communications if you need Cabling, Phones, need something installed in a hurry, etc.

Linda Crist
Office Administrator
Donna Jackson, Attorney At Law

A handwritten signature in cursive script that reads "Linda Crist".
