

JAMES  LANKFORD
★ S E N A T E ★

To Whom It May Concern:

We are grateful for the professional work provided by Kirk Owens with Owens Communications. Kirk has been helpful several times for installing our data wiring and phone systems in our offices. He is very personable and provides reasonable solutions for the task at hand. Owens has always completed the jobs in a timely manner. Kirk has been quick to respond to any questions or needs that arise before or after the installation.

I am happy to recommend the services of Owens Communications to other potential clients. If you have any questions, feel free to contact me at 405.509.1182.
