January 30, 2014

To Any Party Considering Owens Communications,

When we opened up our new Oklahoma City office we contracted with Owens Communications to provide the installation of our Cloud based phone system, installing our TV/Audio system and mounting various prints, maps, etc. throughout our facility.

Installation was timely, effective, professional and fairly priced. We will plan to use Owens Communications again for these types of products and services in our Oklahoma operations.

Sincerely,

A handwritten signature in black ink, appearing to read "Brett Pylant", written over a white background.
