Owens Communications  
705 S. Mustang Rd, #162  
Yukon, OK 73099

To Whom It May Concern,

Recently my company remodeled and added some new floor space. The space had been previously occupied, then unoccupied so there was some existing wiring but it was a mess. Consequently we needed to find a company that could make sense out of this mess, reuse what was possible, and provide us with good working Telephone and Network Cabling in our new offices. Owens Communications was our choice to provide this project.

The work was done in a timely manner by professional staff. They were here every day we had agreed on and were always on time. I was informed about what had been done in a clear and understandable manner, and everything was thoroughly tested and labeled so we now know what we have. We were pleased with the performance and will plan to use Owens Communications again for these types of projects.

Sincerely,

Mark Morris  
Manager
